PROYACHT

OUR MISSION

Proyacht's mission is to provide comprehensive support wherever and whenever it's needed, guaranteeing that every component of the yacht operates flawlessly. Our team consists of highly skilled craftsmen, meticulously trained to tackle a diverse range of challenges, including technical, mechanical, and visual issues.

MEET OUR TEAM

Our Proyacht team of highly skilled craftsmen is dedicated to delivering excellence in every aspect of yacht maintenance and construction. With years of experience in the industry, our craftsmen possess the expertise to swiftly troubleshoot problems and execute solutions with precision. From technical malfunctions to mechanical concerns, our team ensures that every component operates flawlessly, enhancing the visual appeal of your yacht and providing a seamless sailing experience.

OUR HISTORY

Proyacht is founded by Max Soek. Proyacht brings a wealth of experience and dedication to the superyacht market. With a background at Royal Van Lent (The Netherlands), Max Soek has assembled a team committed to providing maintenance services for existing superyachts and assisting in the construction of new superyacht projects. Our history is rooted in a passion for excellence and a commitment to exceeding client expectations, ensuring that every project, whether large or small, is completed to the highest standards.

OUR SERVICES

Proyacht offers a comprehensive range of support services, created to meet the unique needs of yacht owners. Our services could be divided into three categories; on-demand support, refit & service and exclusive custom yard support. Proyacht's expertise extends to every aspect of yacht maintenance and construction. This could vary from resolving intricate technical malfunctions, addressing mechanical concerns, system optimization, technical renovations or enhancing the visual appeal of the yacht.

Next to that, we reimagine technical spaces, creating custom storage solutions that maximize efficiency without compromising on aesthetics. Our bespoke storage racks are designed to liberate valuable space in technical areas, enabling the accommodation of more equipment while maintaining accessibility and organization.

At Proyacht, we've got talented craftsmen who possess the expertise of all sorts of technical tasks with ease, from mechanical piping to carpentry. Our craftsmen will execute every task with precision and finesse.

FACTS

- We collaborate with a diverse range of shipyards such as Royal Huisman, Oceanco, Feadship (De Vries & Van Lent), Hamarcon, Mulder Shipyard, Balk Shipyard and Luerksen.
- We make every effort to ensure that the service period is seamless.
- We always go for the extra mile to ensure the client receives our full attention, guaranteeing everything is perfect. We understand their unique needs, and exceed their expectations.
- We recognize the need for precision, expertise, and attention to detail at every stage of the yacht building process. That's why we provide a diverse range of services customized to suit the specific needs of yacht builders and owners.
